

MAMA, WHY YOU DEY STRESS?

If you get detty from farm or kitchen, before you burn am or troway the detty, you fit

Turn am to Biochar to improve soil for your farm or sell

Turn am to Briquettes to use as charcoal wey no go bring smoke and e go burn well well

Turn am to Compost and use as organic fertilizer

Why E Good to Convert Your Detty

- E go reduce smoke and air pollution
- As you dey keep your environment clean, e go reduce flies, rats and other insects wey dey cause sickness
- You fit get extra money from selling biochar, briquette or compost
- Beta cooking fuel wey go save time from firewood wahala
- Better farm yield with compost
- Less smoke, better health for women and pikin dem

“Make we join hands turn our waste to wealth make or environment beta”
