

THE GREEN BUSINESS – CLEAN FUEL FOR BETA LIFE

Why you dey spend heavy moni buy charcoal or kerosene
when you fit make your own fuel and still sell the extra join?

Wetin be Biochar and Briquettes?

Biochar na wetin you go get
when you burn farm detty
(like rice husk or corn cobs)
for some time. Na "black gold"
to make fuel or make soil fat.

Briquettes na "clean
charcoal" wey dem make
from farm detty wey dem
burn mixed with small
starch like cassava flour or
clay

Why The Business Pay and E good

- **Shikini Moni to Start:** Na only drum, turning stick, and small mould you need.
- **Big Market:** Everyone must cook! E dey burn well and e cheap pass normal fuel by 9-15 times.
- **Beta Profit:** You fit make heavy gain from waste wey you pack for free.
- **Daily Income:** Women groups fit produce and sell to pack extra cash every day.

START YOUR CLEAN FUEL BUSINESS TODAY! SAVE THE ENVIRONMENT!
